650 RC Liquid Adhesive

Product Overview

Alumaguard® flexible weather-proofing jacket is the original, self-healing membrane used on exterior duct-work, refrigeration and chilled water piping, tanks, vessels, and equipment.

Alumaguard® is a composite membrane consisting of a multi-ply embossed UV-resistant aluminum foil/polymer laminate to which is applied a layer of rubberized asphalt specially formulated for use on insulated duct and piping applications. Alumaguard® out performs other common exterior weather barriers, laggings, or coatings, and, by providing exceptional UV protection, weather protection, vapor barrier, and mechanical protection; and simple 'peel and stick' installation!

- **Develops exceptional bond between membrane and pavement**
- **Can be applied using a paint roller or spray device**
- **Useful on old or new asphalt pavement surfaces if air temperature is below 70°F**
- **Can be used to seal overlaps and end joints in place of mastic**

Property/Unit	Test Method	Typical - English	Typical - Metric
Color	-	Black	Black
Specific Gravity	ASTM D 891	.92	.92
Flash Point	ASTM D 56	105°F	41°F
