

Alumaguard® Lite Cool Wrap

PRODUCT OVERVIEW

Alumaguard® Lite Cool Wrap™ is also available. This technology is a "green" energy saving flexible cladding available in configurations for all of our Alumaguard® family of products. Alumaguard® Lite Cool Wrap™ acrylic adhesive is the perfect vapor and weather barrier, with a matte white, high emissivity/reflectivity coated membrane for exterior use.

- Zero Perm (0.00 permeability)
- 10-Year Warranty
- Cold weather acrylic adhesive allows installation down to 10°F
- Composite membrane with superior bond strength
- Easy to install peel and stick, no special tools required
- Puncture resistant

Properties	Initial	3 Year
Solar Reflectance (ASTM C1549)	0.86	0.82
Thermal Emittance (ASTM C1371)	0.82	0.86
California Title 24	Exceeds 0.75	Exceeds 0.75
