

AIRLOK® SHEET 200 BU/NP

NON-PERMEABLE AIR & MOISTURE BARRIER SHEET MEMBRANE

Polyguard Airlok® Sheet 200 BU/NP

Airlok® 200 BU/NP Air and Moisture Barrier is non-permeable sheet membrane, available in various sizes, designed for air and moisture protection in both field and flashing applications. The butyl compound properties allow for the membrane to fully adhere tenaciously to itself, surface materials; such as wood, metal, sheathing, concrete, and fasteners that are left in place, which eliminates membrane blow-off and tears before exterior wall finish installation. Once installed and covered with cladding, the membranes are permanent and will not rot or decay from mildew or mold. The Airlok® 200 BU/NP is 28 mils thick and is available in various pre-cut sizes to meet the demands of traditional flashings and details.

AIRLOK® 200 BU/NP (28 mil, Butyl Compound, Non-Permeable Sheet) (Cut sizes have Slit Release)

Check	200 BU/NP Products	Part Number	Unit Size	Units/pallet	Wt/unit
