

DRAINAGE SYSTEMS

DRAINAGE & PROTECTION

The Polyflow® Drainage family of products were designed and introduced by Polyguard Architectural Products to provide our customers a variety of solutions to lightweight drainage and at the same time be compatible with our engineered sheet and liquid membrane products. These products are lightweight, have high capacity, can decrease excavation needs and are easy to install. We offer 5200, 15,000, and 21,000 psf products. Some of our products are to be installed vertically, some horizontally. Some products come with a high strength Polymeric film on one side and some without. Whether it is called "Drainage Board", "Dimple Board", or "Drainage Panel" we have below grade drainage products to compliment your waterproofing system. For high volume applications see our Polyguard Totalflow™ product and accessories.

Check	Polyflow® Products:	Part Number	Unit Size	Units/pallet	Wt/unit
	Polyflow® BD (<i>for balcony decks with less than 3" of concrete & foot traffic only</i>)	POLYFLOW BD	4' x 50' roll	9 rolls/pallet	35#/roll
