

# TRM Micromesh

## PRODUCT OVERVIEW

TRM Micromesh is a perfect solution to areas that need drainage and air flow, but also need to keep subterranean termites and all other insects and pests out. This marine-grade 316 Stainless Steel Mesh is flexible and easily cut with standard scissors. Embed the mesh into TRM Sealant for an exclusion against top of concrete leave-outs/bath traps and other areas in need of pest exclusion. TRM Micromesh is pre-cut into sections of 2' x 4'.

- Stainless-Steel Marine Grade Micro-Mesh
- 0.02" aperture blocks all subterranean termites.
- Allows drainage where needed
- Available in easy to cut 2' x 4' sections
