## Safety Data Sheet

### **Section 1. Identification**

**GHS** product Identifier Blindside Membrane Other means of identification Not available

#### Relevant identified use of the substance or mixtures and uses advised against

Polymer modified bitumen membrane used to create a barrier to water and moisture vapor entry. Formerly known as Underseal Blindside Membrane.

Supplier's details Polyguard Products, Inc.

3801 South Interstate 45

Ennis, TX 75119

Tel: (214) 515-5000 (M-F 7 am-5 pm CST)

hours of operation)

(24/7)

### Section 2. Hazards Identification

This product is classified as a non-hazardous per OSHA 1910.1200. This product is defined as an "article". A manufactured item that is formed to a specific shape or desogn during manufacture that does not release or result in exposure to a hazardous chemical under normal use conditions.

# Section 3. Composition/Information on Ingredients

Substance/Mixture Mixture Other means of identification Not available

Ingredient name	%	CAS#
Asphalt	50-60	8052-42-4
Distillates( petroleum), petroleum residues vaccum	1-5	68955-27-1
Limestone	10 - 20	1317-65-3
Crystalline Silica, quartz (inpurity)	<1	14808-60-7

The exact percentage (concentration) in the composition has been withheld as a trade secret.

Occupational exposure limits, if available are listed in section 8.

None of the components of this article are in a respirable state.

#### Section 4. First Aid Measures

#### Description of necessary first aid

measures.

**Eye contact** Flush with water for at least 15 minutes. If pain or irritation persists, consult a physician.

**Inhalation** Not likely in current form.

Skin contact Wash with soap and water. In case of irritation, consult physician.

Not likely in current form. **Ingestion** 

Most important symptoms/effects, acute and delayed

Potential acute health effects

Eye contact May cause eye irritation

Inhalation Not applicable. **Skin contact** Irritation and redness.

**Ingestion** Not known. В

## **Section 5. Fire-Fighting Measures**

**Extinguishing media** 

Suitable extinguishing media

Use an extinguishing agent suitable for the surrounding fire.

Unsuitable extinguishing media None known

**Specific hazards arising from the**Generation of toxic fumes from burning product.

chemical

**Special Fire Fighting Procedures** For large fires in confined areas use approved self-contained breathing apparatus

(SCBA). Use water fog or spray to protect exposed equipment and containers.

#### Section 6. Accidental Release Measures

Personal precautions, protective equipment, and emergency procedures.

For emergency responders No special measures required.

Methods and materials for containment and cleaning up

Spill Due to the physical state of this material, spills are not possible.

### Section 7. Handling and Storage

**Precautions for safe handling** 

**Protective measures**Don appropriate personal protective equipment (see Section 8). Avoid exposure-obtain

special instructions before use. Do not handle until all safety precautions have been read and understood. Do not get into your eyes. Do not swallow. Store away from heat, sparks,

open flames, and other ignition sources.

Advice on general occupational

hygiene

Eating, drinking, and smoking should be prohibited in areas where material is handled, stored, and processed. Workers should wash their hands and face before eating, drinking,

and smoking. See section 8 for additional information on hygiene measures.

**Condition for safe storage including** 

any incompatibilities

Store in accordance with local regulations. Store protected from direct sunlight in a dry cool and well-ventilated area, away from incompatible materials (see section 10) and

food and drink. Eliminate all ignition sources.

# **Section 8. Exposure Controls/Personal Protection**

**Occupational exposure limits** 

Ingredient name	Exposure limits		
Asphalt	NIOSH REL		
	CEIL: 5 mg/m <sup>3</sup> 15 minutes. Form: fume		
	ACGIH TLV		
	TWA: 0.5 mg/m <sup>3</sup> , (inhalable fume)		
Limestone	NIOSH REL (United States, 10/2016)		
	TWA: 10 mg/m <sup>3</sup> (total) TWA 5 mg/m <sup>3</sup> (respirable)		
	OSHA PEL (United States, 2/2013)		
	TWA: 15 mg/m <sup>3</sup> (total) TWA 5 mg/m3 ( respirable)		
Crystalline Silica, quartz (inpurity)	NIOSH REL (United States, 10/2016)		
	Ca TWA: 0.05 mg/m <sup>3</sup>		
	OSHA PEL		
	TWA $50 \mu\text{g/m}^3$		

**Appropriate engineering controls** 

No special ventilation requirements. Ventilation should be sufficient to control worker

exposure to airborne contaminants.

**Environmental exposure controls** 

Emissions from ventilation or work process equipment should be checked to ensure they

comply with the requirements of environmental protection legislation.

## **Section 8. Exposure Controls/Personal Protection**

**Hygiene measure** Wash hands, forearms, and face thoroughly after handling chemical products, before

eating, smoking, and using the lavatory and at the end of the working period. Ensure that

eyewash stations and safety showers are close to the workstation location.

Safety eyewear complying with an approved standard should be used when risk

assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases

and dusts.

**Skin Protection** 

**Eye/face protection** 

**Hand protection** Chemical- resistant, imprevious gloves complying with an approved standard should be

worn at all times when handling chemical products if a risk assessment indicates this is

necessary.

**Body protection** Personal protective equipment for the body should be selected based on the task being

preformed and the risks involved and should be approved by a specialist before handling

this product.

Other skin protection Appropriate footwear and any additional skin protection measures should be selected

based on the task being preformed and the risks involved and should be approved by a

specialist before handling this product.

**Respiratory protection** Based on the hazard and potential for exposure, select a respirator that meets the

appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

## Section 9. Physical and Chemical Properties

**Appearance** 

Physical state Solid

**Color** White printed backing/ Black adhesive layer.

Not applicable

Odor Asphaltic(slight) **Odor threshold** Not available Not applicable pН **Melting point** Not available **Boiling point** Not applicable **Flash Point** Not determined **Evaporation rate:** Not applicable Not applicable Flammability (solid, gas)

(flammable) limits

Lower & upper explosive

Vapor densityNot applicableVapor pressureNot applicable

Relative density 1.09

SolubilityInsoluble in waterPartition coefficient: n- octanol/waterNot availableAuto- ignition temperatureNot applicableDecomposition temperatureNot applicableViscosityNot applicable

**VOC** 0 g/l

## Section 10. Stability and Reactivity

**Reactivity**No data available. **Chemical stability**This product is stable.

Possibility of hazardous reactions Under normal conditions of storage and use, hazardous reactions will not occur.

Conditions to avoid: No data available

Incompatible materials Reactive or incompatible with the following materials: Oxidizing materials

Hazardous decomposition products

Under normal conditions of storage and use, hazardous decomposition products should

not be produced.

## Section 11. Toxicological Information

#### <u>Information on toxicological effects</u> Acute toxicity

Product/ingredient name	Result	Species	Dose	Exposure
Petroleum Asphalt	LD50 Oral	Rat	> 5000 mg/kg	-
Limestone	LD50 Dermal	Rabbit	> 2000 mg/kg	-
Crystalline Silica, quartz	LD50 Oral	Rat	6450 mg/kg	-
(impurity)	LD50 Oral	Rat/ mouse	500 mg/kg	-

Irritation/CorrosionThere is no data availableSensitizationThere is no data availableMutagenicityThere is no data available

Carcinogenicity Classification

Product/ingredient name	OSHA	IARC	NTP
Asphalt	-	2B	-
Crystalline Silica, quartz (Impurity)	_	1	_

## **Section 12. Ecological Information**

#### **Toxicity**

Persistence and degradabilityThere is no data availableBioaccumulative potentialThere is no data available

**Mobility in soil** 

**Soil/water partition coefficient (Koc)** There is no data available.

Other adverse effects No known significant effects or critical hazards

### **Section 13. Disposal Considerations**

#### **Disposal methods**

The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe way. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor.

## **Section 14. Transportation Information**

**AERG:** Not applicable

**Regulatory Information:** 

DOT/TDG/IMDG/IATA Not regulated

### **Section 15. Regulatory Information**

U.S. Federal regulations: United States inventory (TSCA): all components are listed or exempted

#### **Composition/information on ingredients**

SARA 304 RQ Not applicable
SARA 311/312 Not applicable
SARA 313 Not applicable

**State regulations** 

MassachusettsThe following components are listed: Petroleum asphaltNew JerseyThe following components are listed: Petroleum asphaltPennsylvaniaThe following components are listed: Petroleum asphalt

<u>California Prop.65</u> None of the components are listed on the Prob 65 list dated 12-29-2023.
