

LM 85 SSL

PRODUCT OVERVIEW

Polyguard LM 85 SSL is a part of Polyguard's Highway family of products, and is a two component, semi-self-leveling, asphalt modified urethane liquid membrane for use on new and repaired concrete. 45 minute working time. Useful for leveling out uneven substrate conditions on bridge deck applications.

- Semi-Self Leveling for spot repairs of substrate in advance of membrane application
- 100% solid, solvent-free, black pourable liquid membrane
- Adheres to primed and unprimed concrete
- Improves adhesion of membrane
