

Quick Grip LV - Low VOC

PRODUCT OVERVIEW

Polyguard's Quick Grip LV is an industrial-grade aerosolized adhesive in a portable spray system. Quick Grip LV is formulated to adhere protection courses, drainage composites, rigid insulation, sheet air & vapor barrier membranes, sheet waterproofing membranes, and sheet thru-wall flashings to a variety of substrates. It contains no chlorinated solvents and offers an excellent alternative to methylene chloride-based products. Quick Grip LV provides a fast and economical solution to most building envelope component adhesive requirements.

- Expect coverage of 1200-1400 SF per canister
- Quick dry time, 2-5 minutes at 60°F
- Bonding needs to be done within 30 minutes. Full bond develops over 2 days
- Can be used as a primer or an adhesive
- Excellent adhesion to many substrates
- Aggressive grab tack
- Dries clear
- No clean-up or maintenance
- LVOC is GREENGUARD Certified and contributes to LEED credits
