

Quick Grip LV Spray Kit - Low VOC

PRODUCT OVERVIEW

Polyguard's Quick Grip LV Spray Kit comes with all components needed to apply product. Quick Grip LV is an industrial-grade aerosolized adhesive in a portable spray system. It is formulated to adhere protection courses, drainage composites, rigid insulation, sheet air and vapor barrier membranes, sheet waterproofing membranes, and sheet thru-wall flashings to a variety of substrates. It contains no chlorinated solvents and offers an excellent alternative to methylene chloride-based products. Quick Grip LV provides a fast and economical solution to most building envelope component adhesive requirements.

- All components included for use: Quick Grip hose, 30 lb. canister, adjustable spray gun and tip (ST6501)
- Expect coverage of 1200-1400 SF per canister
- Quick dry time, 2-5 minutes at 60°F
- Bonding needs to be done within 30 minutes. Full bond develops over 2 days
- Excellent adhesion to many substrates
- Aggressive grab tack
- Dries clear
- No clean-up or maintenance
- LVOC is GREENGUARD Certified and contributes to LEED credits

Typical Properties

Base	Synthetic Polymer
Solvent	Methyl Acetate
Shelf Life	1 year from date of manufacture**
Color	Clear
Flash Point	<0°F
Weight/Gallon	7.16 Lbs./Gallon
VOC content	123.5 g/L (EPA Method)
Open Time	30 minutes
Dry Time	2-5 minutes
Formaldehyde	No urea formaldehyde added during adhesive manufacturing.
