

Safety Data Sheet

Section 1. Identification

GHS product Identifier : RG-2400® ET
Product code : Not available
Other means of identification : Not available
Product type : Anti Corrosion Gel product

Relevant identified used of the substance or mixtures and uses advised against

Identified use: Anti-corrosion gel product.

Manufacturer Polyguard Products, Inc.
 4101 South Interstate 45
 Ennis, TX 75119
 Tel: (214) 515-5000
Emergency telephone number) CHEMTREC, US 1-800-424-9300 International 1-703-527-3887
with hours of operation) (24/7)

Section 2. Hazards Identification

OSHA/HCS status : While this material is not considered hazardous by the OSHA Hazardous Communications Standard (49CFR1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product.

Classification of the substance or mixture : Not classified

GHS label elements

Signal word : No signal word
Hazard statement : No known significant effects or critical hazards.

Precautionary statements

Prevention : Not applicable.
Response : Not applicable.
Storage : Not applicable.
Disposal : Not applicable.
Hazards not otherwise classified : None known

Section 3. Composition/Information on Ingredients

Substance/Mixture : Mixture
Other means of identification : Not available

Ingredient name	%	CAS Number
Octadecyl 3-(3,5-di-tert-butyl-4-hydroxyphenyl)propionate	1-5	2082-79-3

United States: the exact percentage (concentration) in the composition has been withheld as a trade secret in accordance with paragraph (i) of 1912.1200.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentration applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First Aid Measures

Description of necessary first aid measures.

- Eye contact** : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.
- Inhalation** : Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if irritation occurs.
- Skin contact** : Flush contaminated skin with plenty of soap and water. Get medical attention if symptoms occur.
- Ingestion** : Wash out mouth with water. Remove victim to fresh air and keep at a rest position comfortable for breathing. If material has been swallowed and the exposed person is conscious give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

Most important symptoms/effects, acute and delayed

Potential acute health effects

- Eye contact** : No known or significant effects or critical hazards.
- Inhalation** : No known or significant effects or critical hazards.
- Skin contact** : No known or significant effects or critical hazards.
- Ingestion** : No known or significant effects or critical hazards.

Most important symptoms/effects, acute and delayed

Over-exposure signs/symptoms

- Eye contact** : No known or significant effects or critical hazards.
- Inhalation** : No known or significant effects or critical hazards.
- Skin contact** : No known or significant effects or critical hazards.
- Ingestion** : No known or significant effects or critical hazards.

Indication of immediate medical attention and special treatment needed, if necessary.

- Notes to physician:** : Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
- Specific treatments** : No specific treatment
- Protection of first-aiders:** : No action shall be taken involving any personal risk or without suitable training.

Section 5. Fire-Fighting Measures

Extinguishing media

- Suitable extinguishing media** : Use an extinguishing agent suitable for the surrounding fire.
- Unsuitable extinguishing media** : None known
- Specific hazards arising from the chemical** : In a fire or if heated, a pressure increase will occur, and the container may burst.
- Hazardous thermal decomposition products** : Decomposition products may include the following materials: carbon dioxide, carbon monoxide.
- Special protective equipment** : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
- Special protective actions for fire fighters** : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full-face piece operated in a positive pressure mode.

Section 6. Accidental Release Measures

Personal precautions, protective equipment and emergency procedures.

- For non emergency personal** : No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk thru spilled material. Put on appropriate personal protective equipment.
- For emergency responders** : If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel."
- Environmental precautions** : Avoid disposal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil, or air).

Methods and materials for containment and cleaning up

- Spill** : Stop leak if without risk. Move container from spill area. Approach release from upwind. Prevent entry into sewers, water courses. Contain and collect spillage with non-combustible absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations Dispose of via a licensed waste disposal contractor. See Section 13 for waste disposal.

Section 7. Handling and Storage

Precautions for safe handling

- Protective measures** : Put on appropriate personal protective equipment (see Section 8).
- Advice on general occupational hygiene** : Eating, drinking and smoking should be prohibited in areas where material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See section 8 for additional information on hygiene measures.
- Conditions for safe storage, including any incompatibilities** : Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry cool and well-ventilated area, away from incompatible materials (see section 10) and food and drink. Keep container tightly closed and sealed until ready to use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See section 10 for incompatible materials be handling or use.

Section 8. Exposure Controls/Personal Protection

Control parameters

Occupational exposure limits

Ingredient name	Exposure limits
Octadecyl 3-(3,5-di-tert-butyl-4-hydroxyphenyl)propionate	None

- Appropriate engineering controls** : Good general ventilation should be sufficient to control worker exposure to airborne contaminates.
- Environmental exposure controls** : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation.

Section 8. Exposure Controls/Personal Protection

- Hygiene measure:** : Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking, and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the work station location.
- Eye/face protection** : Safety eyewear complying with an approved standard should be used when risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: Safety glasses with side shields.
- Skin Protection**
- Hand protection** : Chemical- resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.
- Body protection** : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
- Other skin protection** : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
- Respiratory protection** : Use a properly fitted, air purifying or supplied air respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

Section 9. Physical and Chemical Properties

- Appearance**
- Physical state** : Creamy, tacky gel (paste)
- Color** : Bluish gray
- Odor** : Not available
- Odor threshold** : Not available
- pH** : Not applicable
- Melting point** : Not available
- Boiling point** : Not available
- Flash Point** : > 143.3 °C (290 ° F) Cleveland Open Cup
- Evaporation rate:** : Not available
- Flammability (solid, gas)** : Not available
- Lower & upper explosive (flammable) limits** : Not available
- Vapor density** : Not available
- Vapor pressure** : Not available
- Relative density** : 0.95-1.05
- Solubility** : Insoluble in water.
- Partition coefficient: n-octanol/water** : Not available
- Auto- ignition temperature** : > 442 °C (> 827.6 ° F)
- Decomposition temperature** : Not available
- Viscosity** : Not available

Section 10. Stability and Reactivity

Reactivity	: No specific test data related to reactivity available for this product or its ingredients.
Chemical stability	: This product is stable.
Possibility of hazardous reactions	: Under normal conditions of storage and use, hazardous reactions will not occur.
Conditions to avoid:	: No specific data.
Incompatible materials	: Reactive or incompatible with the following materials: oxidizing materials.
Hazardous decomposition products	: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

Section 11. Toxicological Information

Information on toxicological effects

Acute toxicity : There is no data available.

Product/ingredient name	Result	Species	Dose	Exposure
Octadecyl 3-(3,5-di-tert-butyl-4-hydroxyphenyl)propionate	LD ₅₀ Oral	Rat	> 5000 mg/kg	-

Irritation/Corrosion	: There is no data available.
Sensitization	: There is no data available.
Mutagenicity	: There is no data available.
Carcinogenicity	: There is no data available.
Reproductive toxicity	: There is no data available.
Teratogenicity	: There is no data available.
Specific target organ toxicity (single exposure)	: There is no data available.
Specific target organ toxicity (repeated exposure)	: There is no data available.
Aspiration Hazard	: There is no data available.
Information on the likely routes of exposure	: Dermal contact, eye contact, ingestion, inhalation.

Potential acute health effects

Eye contact	: No known significant effects or critical hazards.
Inhalation	: No known significant effects or critical hazards.
Skin contact	: No known significant effects or critical hazards.
Ingestion	: No known significant effects or critical hazards.

Symptoms related to the physical, chemical and toxicological characteristics

Eye contact	: No known significant effects or critical hazards.
Inhalation	: No known significant effects or critical hazards.
Skin contact	: No known significant effects or critical hazards.
Ingestion	: No known significant effects or critical hazards.

Delayed and immediate effects and also chronic effects from short and long term exposure

Short term exposure

Potential immediate effects:	: No known significant effects or critical hazards.
Potential delayed effects:	: No known significant effects or critical hazards.

Section 11. Toxicological Information

Long term exposure

Potential immediate effects: : No known significant effects or critical hazards.

Potential delayed effects: : No known significant effects or critical hazards.

Potential chronic health effects

General : No known significant effects or critical hazards.

Carcinogenicity : No known significant effects or critical hazards.

Mutagenicity : No known significant effects or critical hazards.

Teratogenicity : No known significant effects or critical hazards.

Developmental effects : No known significant effects or critical hazards.

Fertility effects : No known significant effects or critical hazards.

Numerical measure of toxicity

Acute toxicity estimates : There is no data available.

Section 12. Ecological Information

Toxicity : There is no data available.

Persistence and degradability : There is no data available.

Bioaccumulative potential

Product/ingredient name	LogP _{ow}	BCF	Potential
Octadecyl 3-(3,5-di-tert-butyl-4-hydroxyphenyl)propionate	-	<1470	High

Mobility in soil

Soil/water partition coefficient : Not available.

(K_{oc})

Other adverse effects : No known significant effects or critical hazards.

Section 13. Disposal Considerations

Disposal methods : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recycled products via a licensed waste disposal contractor. Waste should not be disposed of to a sewer. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling empty containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, water ways, drains and sewers.

Section 14. Transportation information

DOT/IATA/IMDG : Not regulated

Section 15. Regulatory Information

US Federal Regulations	: United States inventory (TSCA 8 b): All components are listed or exempted. TSCA 8(a) PAIR: Siloxanes and Silicones, di-Me, reaction products with silica TSCA 8(a) CDR Exempt/partial exemption: Not determined.
Clean air act section 112 (b) Hazardous Air Pollutants (HAPs)	: Not listed.
Clean Air Act Section 602 Class I Substance	: Not listed.
Clean Air Act Section 602 Class II Substance	: Not listed.
DEA List I Chemicals (Precursor Chemicals)	: Not listed.
DEA List II Chemicals (Essential Chemicals)	: Not listed.
SARA 302/304	: No products found
SARA 304 RQ	: Not applicable.
SARA 311/312 Classification	: Not applicable.
<u>SARA 313</u>	: This product does not contain any chemicals which are subject to the reporting requirements of the Act and Title 40 of the Code of Federal Regulations, Part 372.
<u>State Regulations</u>	
Massachusetts	: None of the components are listed.
New York	: None of the components are listed.
New Jersey	: None of the components are listed.
Pennsylvania	: None of the components are listed.
California Prop 65	: No products were found.

16. Other information

Date of revision:	June 4, 2019
Date of previous issue	August 30, 2018
Revisions:	Add flash point data.
Version	5
